

RONDO

A cyclist is riding a road bike on a grassy hillside during the "blue hour" of twilight. The sky is a mix of purple, blue, and pink, and a large, bright full moon is visible in the upper right. The cyclist is silhouetted against the sky. The foreground is filled with dark, out-of-focus vegetation.

RUNNING CHANGE

Saddle: SELLE SAN MARCO SHORTFIT

*the photo does not show the exact final bike, some changes may apply.

OUR CLASSIC RUUT IS VERY AGGRESSIVE OFF-ROAD ORIENTATED BIKE. WITH THIS NEW VERSION WE WANTED TO ADDRESS THE NEEDS OF PEOPLE WHO'S MAIN INTEREST IS BIKE PACKING AND LONG DISTANCE RIDING ON VARIED TERRAIN. FASTER ROLLING TIRES AND A 2X DRIVETRAIN WITH A BIG RANGE AND DENSER GEARING MAKES THIS SETUP A GREAT CHOICE FOR EXACTLY THOSE APPLICATIONS.

GEN 1.1

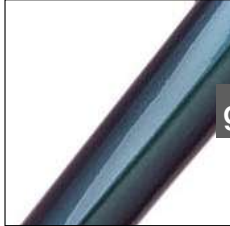

MODEL FEATURES

MUTT

LONG DISTANCE ALLROAD

Comfort means speed when longer distance involved. And comfort was the main goal when we have been designing this ultimate long distance all-road machine. Stable and confident yet still nimble and engaging, the MUTT bikes are versatile and capable. These are modern touring bikes, that are also a perfect choice for long distance commuting or comfy backroad adventuring. Load up and get out there. Vario geometry, flex frame design, plushy roadplus tires, 2x road drivetrains and fenders combined in one tool that will get you from A to the end of the world through any weather and kind of beaten road. Or just from your place to the office if you fancy commuting with speed & style. You can also swap the wheels for 700C, ditch the fenders, put the fork into the HI position and you have a classic endurance road bike, ready for a long distance race.
